Long-lasting
protection

BEKAERT DESLEE

Live. Love. Sleep. Be Happy.

Long-lasting protection

NANOTEX TREATED SAMPLES ARE EVALUATED BY AUTHORISED, INDEPENDENT ORGANIZATIONS. NANOTEX IS OEKO-TEX® STANDARD APPROVED.

INCREASE THE LIFE OF YOUR MATTRESS

Nanotex helps to maintain the appearance and increases the life of your mattress by keeping it cleaner and fresher for a longer period of time. It is a soft and durable application that provides the right balance of comfort and performance.

This innovative solution resists spills and repels stains.

HOW DOES IT WORK?

Nanotex applies nanotechnology to the mattress textiles. This nanotechnology transforms the molecular structures of fibers and creates fabrics that offer unsurpassed performance and comfort.

This technology provides amazing functional improvements without changing the natural characteristics of the fabric, like handle and drape.

Thanks to your Nanotex mattress fabric, body sweat will be absorbed by the frequently washed bed linen, not by the mattress. Urine or blood spills will not be absorbed by the fibers of the mattress fabrics and can be cleaned easily without leaving a stain.
